

2nd International Specialized Expo
for Technologies,
Equipment & Specialized Vehicles

DALTECH EXPO

Vladivostok
25-27
October

"We have set ourselves an ambitious and large-scale task –
to turn the Far East into a center for the development of our country,
a powerful and advanced center"

Vladimir Putin

For a number of years, the Far Eastern Federal District has been one of the fastest-growing areas in Russia. Its competitive transportation and logistics advantages as well as Advanced Special Economic Zones and Free Port of Vladivostok offer unparalleled opportunities for development of manufacturing and processing industries in the region.

With highly ambitious growth targets in general industrial, agriculture, tourism and transportation sectors, the region has a strong demand for cutting-edge technologies, tools, equipment, and solutions to address the needs of the industries for advanced manufacturing technologies.

The Far Eastern Technology Expo - DALTECHEXPO is an efficient business-to-business marketplace for Russian and international companies to enter this fast-growing market and showcase their products to the region's top buyers of manufacturing technology.

WHY EXHIBIT

Discover the
Far East of Russia,
a fast-growing market
of increasing global
